BICYCLE®
THE INTERNATIONAL BRAND
FOR WORLDWIDE FUN

THIS IS BICYCLE®

Bicycle® Playing Cards are the most widely used playing cards in the world. You'll find the decks everywhere, from the most exclusive tables in Vegas to kitchen tables in your hometown. Bicycle® cards have been the bestselling playing card brand in the world for over 130 years. Our cards paved the road to freedom for prisoners in World War II and have kept presidents entertained in the Oval Office. Even in space, Bicycle® cards have been used to create magical moments.

Bicycle® cards can be used to play over 100 different card games. They stand for cross-generational and cross-national fun, beauty in design and elegance as well as perfect handling for magicians.

Where does Bicycle® come from?

In the early 1880s, bicycling took the USA by storm. It was at this time that Russell & Morgan, the forerunners of USPCC (United States Playing Card Company), decided to produce a line of cards. Inspired by the two-wheeled trend, they named their brand Bicycle®.

What does Bicycle® stand for?

One of the main reasons why Bicycle® continues to be one of the most trusted brands of playing cards is our reputation for providing a consistent high-quality feel and handling across every deck of cards printed.

Each deck is printed on special cardstock and sealed with the patented Air-Cushion® Finish technology - for optimal gliding and, particularly, easy shuffling. In the categories **Originals**, **Creatives** and **Ultimates**, the target groups of Magicians, Design Lovers and Families & Friends will find the perfect cards for special fun and magical moments.

How has Bicycle® changed?

USPCC has been part of the Cartamundi Group since 2019. The expertise in the development and production of the Bicycle cards, however, remains in American hands.

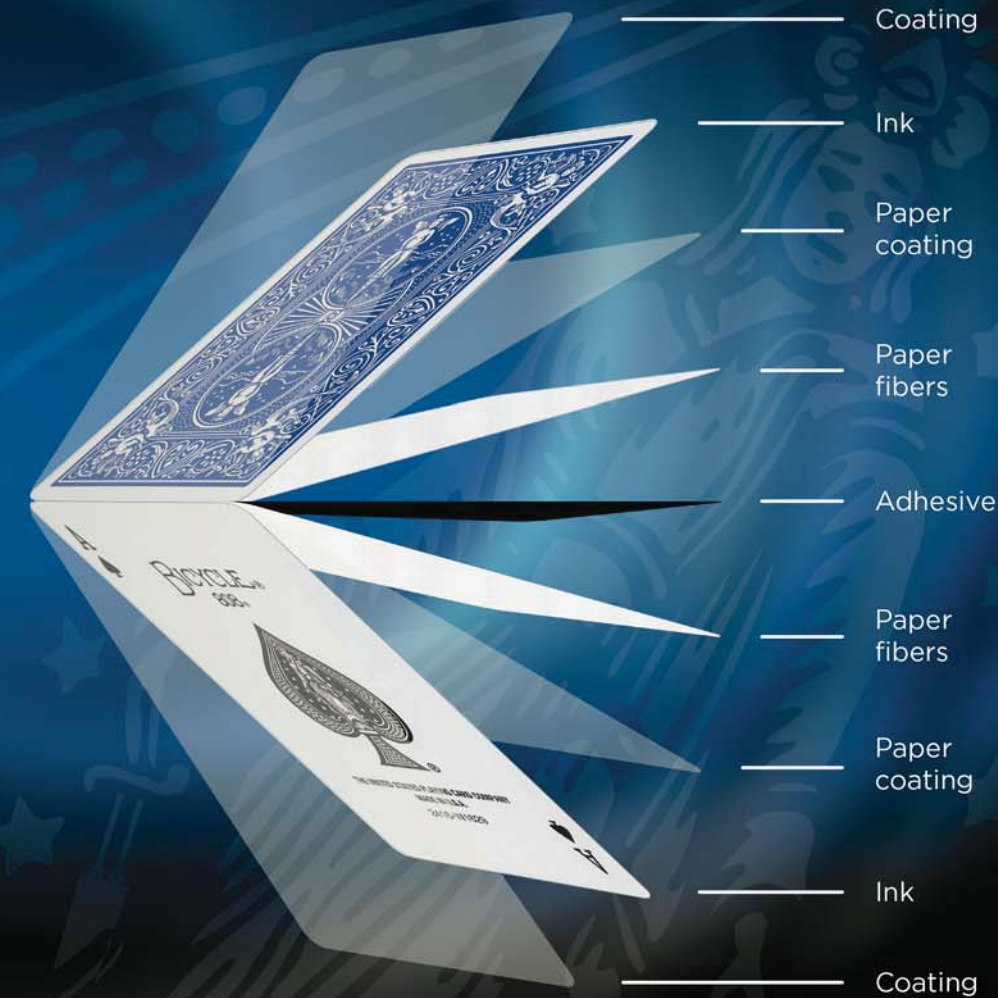

WHAT MAKES BICYCLE® SO SPECIAL

- **Rider Back:** Rider Back is the name of the card back design, showing Cupid riding a bicycle. It is probably the most famous back design in the world, as it has been in permanent production since 1887. The name is also widely used for the Bicycle Standard Index, the 808 and 807 decks.
- **Air-Cushion® Finish:** This unique, patented finish, a combination of coating, embossing and cutting, provides the perfect texture. It allows cards to glide smoothly over each other, ensuring unsurpassed performance and quality. It was developed and refined through decades of research and development.
- **Ace of Spades:** Bicycle®'s distinctive Ace of Spades features the statue of the Goddess of Liberty, based on Thomas Crawford's bronze statue that has crowned the dome of the U.S. Capitol in Washington, DC since 1863.
- **The Joker:** The Joker is an American invention from around 1865 and has made several appearances in the Bicycle® card series. He was originally depicted as a joker, or court jester, on a high-wheeled bicycle. The bicycle was later fitted with two full-size wheels. A deck with card kings on bicycles followed.

NINE LAYERS OF A GREAT CARD

- **Coating:**
Air-Cushion® water-based finish, proprietary to USPCC
- **Ink:** vegetable ink
- **Paper fibers:**
proprietary to USPCC
100% sourced from FSC and SFI certified forests
- **Adhesive:**
water soluble starch-based adhesive, making the cards 100% recyclable

FAMILY & FRIENDS

People in the category Family & Friends are people of all ages, genders and backgrounds that love to play a game of cards for fun.

What are their needs?

They are looking for authentic roots, a real story. Through a game of cards, the Socializer seeks out unforgettable moments.

THE DESIGN LOVER

The Design Lover doesn't necessarily play cards, but they are attracted to beautiful objects. With their premium artwork and quality feel, Bicycle® cards will put a smile on their face.

What are their needs?

Aesthetic pleasure is what drives the Design Lover. They choose to surround themselves with carefully curated items, appreciated for their creative and imaginative qualities.

THE MAGICIAN

The Magician is a master of illusion. A deck of card allows them to create a whole new world in which magic is real.

What are their needs?

Their clever tricks and sleight of hand require materials of the highest quality. Only exceptional glide and handling will suffice for the Magician.
